

# BUDZIECHÓW WIND FARM

POLAND

## PROJECT OVERVIEW

---

 CLIENT  
**GEWIND**

 SCOPE  
**WIND FARMS CONSTRUCTION (BoP)  
POWER & GRID (EPC)**

 LOCATION  
**BUDZIECHÓW, POLAND**

## WHAT WE DID

---

- // Access roads
- // Foundations & Platforms
- // Cable trenches
- // 19 km of Medium Voltage Cable Network
- // 20kV Switchstation

**106**  
IMPLEMENTATION  
DAYS 

**6,4 MW**  
INSTALLED  
POWER 

## CHALLENGES

---

The biggest challenge was to comply with the Grid Connection schedule, once the design, that required final approval from authorities, came later than expected. This forced CJR Wind Team to work under record time in order to fulfil client's Grid Connection in time (so our client had no consequences in the agreed FIT).

## PROJECT CHARACTERISTICS

---

WIND TURBINES  
SENVION 3.2M
